

MY-T

LISTENING SYSTEM

My-T Listening System: System Benefits

- > Volume is adjusted by the hearing aid not by the television or audio system – no complaints from other listeners that the volume is too loud!
- > Excellent quality sound reproduction
- > Plug and play technology
- > Portable system – no fixed installation
- > System can be used in any room or area
- > Wireless operation means no messy cords
- > No need to wear any device other than a hearing aid
- > Connects to a variety of systems via SCART or RCA jacks
- > Built in microphone for devices that have no audio outputs
- > Works with any hearing aid having a T-coil
